

Tips for Success in Obtaining a Scholarship

1. Work hard on your studies during your high school years and constantly try to achieve academic excellence. Your studies must come first.
2. Determine goals for yourself annually then work hard so you achieve the goals you have established for yourself.
3. Challenge yourself to try something new, perhaps it may include taking a subject that you may not be comfortable in taking, i.e. a tougher math course, a foreign language, or a course in physics.
4. Become very involved in school activities, clubs, organizations, and/or athletics. Often scholarships are awarded based upon a person's involvement in school activities. If possible become a community volunteer in a well-recognized organization.
5. Prepare your long-term academic and career goals as early as possible. Your future career goals will often dictate the type of classes you will need to take as you prepare for advanced education in college.
6. Decide upon the college or university you will want to attend as early as possible. Once you have made this decision you can learn about entrance requirements, required grade point, and scholarship opportunities.
7. Research scholarship opportunities using the local public library, commercial books on the subject, your school library, contacting the college you may wish to attend, and speaking with your high school counselor.
8. Write for scholarship applications as early as your sophomore year and study them so you can see what you need to prepare yourself for later. Write some practice applications and have them critiqued by your English teacher, school administrators, or the teacher in a subject close to your chosen career field.
9. During your junior year get serious about making applications for scholarships, learn deadlines and specific application requirements of various scholarship granting agencies and organizations. Don't forget to take the ACT and SAT tests if possible.
10. Always type scholarship applications; be sure spelling and grammar are absolutely perfect; answer every question concisely but completely; and be certain your application is submitted on time and is addressed correctly. Be sure to mail it with sufficient postage.
11. Take the time and effort to apply for any and all scholarships. In some years, scholarships are not awarded because no one applied. Remember, getting a scholarship is far easier than working for many hours at a part time job.
12. Please take time to review materials in the College and Career Reference Center in the Good's Learning Resources Center. The center contains several books that will assist you with college and scholarship plans.

KEWANEE SCHOOLS FOUNDATION
DOLLARS FOR SCHOLARS PROGRAM

In January 2006, the Kewanee Schools Foundation became an official Illinois Chapter of the Dollars for Scholars program. Dollars for Scholars is a national network of community-based, volunteer-driven scholarship foundations in cities, towns, and neighborhoods throughout the United States.

As a member of Illinois Dollars for Scholars, we collaborate with other Illinois Chapters, corporations, colleges, and universities to benefit the youth of our community. Our chapter is operated by local volunteers, and our chapter determines how it can best work to meet the needs of local students.

The Kewanee Chapter provides a tax deductible vehicle for local citizens who want to invest in the educational futures of local students.

Fund-raising efforts can range from grassroots activities to providing opportunities for individuals or organizations interested in sponsoring scholarship or establishing endowed scholarships.

The selection of scholarship recipients and the distribution of funds is determined locally through the Scholarship Committee of the Kewanee Schools Foundation.

Any person or organization interested in establishing a Dollars for Scholars scholarship or simply providing a gift to the Dollars for Scholars Scholarship Fund should call the Foundation office at 309-856-8702.
